OUR TERMS OF SALE

CONDITIONS

The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 250 at the thousand rate, nor less than three at the dozen rate.

TERMS

Three per cent. discount for cash with order; two per cent. discount on all invoices paid within ten days. All bills subject to draft in thirty to sixty days, unless otherwise agreed upon.

SUBSTITUTION

Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

PACKING FOR LONG DISTANCE

To far-off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will so state when they order. We will not be responsible for loss or damage in transit when so packed. **We make no charge for packing.**

UNKNOWN CORRESPONDENTS

Orders from unknown correspondents must be accompanied by the cash, or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

COMPLAINTS

No complaints will be entertained unless made immediately on receipt of goods.

REMITTANCE

Should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks are not accepted from unknown correspondents.

SHIPPING FACILITIES

Having the rival express companies—Adams, American, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the National, Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

PLANTS BY EXPRESS

All goods are sent by express unless otherwise ordered.

PLANTS, ROSES, ETC., BY FREIGHT

Plants, Roses, etc., shipped by freight are at purchaser's risk. We will not be responsible for goods so shipped.

The Good & Reese Company's Roses

Are justly celebrated from one end of this continent to the other, even extending to all foreign countries. There is a sense of satisfaction when one can truthfully say, "I have the finest business in Roses of anyone in the world." The great question is, How have you done it? The answer is by supplying Roses that grow and bloom, that are true to name and at as low a cost as good stock true to name can be grown for. Some Roses are dear at any price, all mixed up, and you don't know what you've got. Not so with G. & R. Roses. Every plant is true. We have system to our business and our Rose experts know the how—no guesswork about it. Our Rose trade uses each year some five million plants. Easy to say, but not so easy to grasp. We know with our customers that no Roses are produced that will equal G. & R. quality stock. We thank one and all for past favors. Our aim will be to please you even better in the future than in the past.

Why Our Rose Trade Is By Far The Largest In The World THERE IS A REASON

Because Our

R O S E S

Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We figure a profit on everything we sell and we do not care to sell unless we can make a decent profit to which every good business man is entitled. The best and most expert buyers in the world never make a contract with the lowest bidder, because on the average they know it doesn't pay. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require and we will give you the very best prices at which first-class stock can be sold.

"Not How Cheap--But How Good"

THE G. & R. QUALITY ROSES

2 1/4-inch Pot Rose.

Don't get your headlight behind—light up ahead and keep going. If you hold a penny close to your eye, of course you can't see a dollar behind it. Save a penny and lose a dollar? That's what some buyers do who insist upon the cheapest they can get in Roses. It's false economy. It is the net profit that counts, and not so much the first cost; therefore buy the best you can and insist upon getting it. Did you ever try our first propagating of Roses? A great big difference over the second propagation. When you plant them in the field you can use your cultivator at once without fearing to cover them up. Quite a contrast to the measly little things that you can buy for a song and can't hardly see them in the row after planting, and what's worse don't know what varieties you have. Probably you could pick out a rainbow collection from every sort planted. Write for prices on Roses—Good Roses, the kind that please.

ROSE NOVELTIES FOR 1911

And Some of the Newer Roses of Recent Introduction and Also Some that are Scarce.

THE mistake made by many growers of Roses is their failing to test the new Roses. This is obvious from the fact that there is no other department of floriculture in which there is more effort being put forward both in time and money, than there is along the line of the improvement of the Rose. And this is an honest effort, not such an one as many affirm is being carried on, the simply naming of a Rose and selling it at a high price without regard to its merits. Suppose the case that all Rose growers would look at it from that standpoint and refuse to buy new Roses because the price asked seemed high. This is in part what we would have missed. In the H. P. class we would be content with Paul Neyron, John Hopper and General Jacqueminot and have lacked the enjoyment of such grand late arrivals as Conrad Ferdinand Meyer, and of Frau Karl Druschi and J. B. Clark. In the Hybrid Tea class to have missed the great beauty of Etoile de France and of Chateau Des Clos Vougeat and Madame Segond Weber would have really been a Rose tragedy. And then in the Tea class, who dare say that he is not a better man to have seen the charm of a Friedreichsruh; to have felt the inspiration of a Wm. R. Smith, and to have received the benediction from a Helen Good. These are only a few of the really good things recently introduced, and by all means, both for your own real pleasure and for the replenishment of your purse, plant new Roses. Some may perchance disappoint you, as all may not do well in a given location, but if you get one variety out of ten that will thrive with you, you should feel well repaid, as your outlay with a modest purchase for a trial or test purpose will not embarrass you financially. We test all of the new Roses by an actual test in the garden, keeping data on them covering every point. In other words, we know our Roses.

HYBRID TEA ROSES

Andre Gamon (Pernet Ducher, 1909.)—A very vigorous grower of erect, branching habit; fine bronzy foliage, with long finely shaped buds; the flowers are large, full and globular, carried well above the foliage upon rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose this will become popular on account of its distinct soft color and its remarkably free flowering qualities and hardiness. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Beatrice (Wm. Paul, 1909.)—Deep rich pink, shaded with vermillion when opening, passing to flesh color when fully developed, flowers produced on long erect stems. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$5.50 per hundred. 4-inch pots, \$2.50 per dozen; \$20.00 per hundred.

Chateau des Clos Vougeat (Pernet Ducher, 1908.)—You have all been looking for the black Rose and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish-crimson. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the richest colored of all Roses, being fifty per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. With us the foliage of this Rose is absolutely resistant to black spot and mildew; in a class by itself for this reason alone. Keep your eye on this Rose, as it is a wonder; named after a vintage of famous old French wine. $2\frac{1}{2}$ -inch pots, \$1.50 per dozen; \$10.00 per hundred. 4-inch pots, \$2.50 per dozen; \$20.00 per hundred.

Colonel Leclerc (Pernet Ducher, 1909.)—An extremely vigorous grower of erect, finely branching and profuse habit; fine buds borne singly, flowers large and finely formed; color a lovely cherry-red. A seedling from Testout. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

Crown Princess Cecile (Schmidt, 1908.)—Delicate silvery-pink; long buds opening to large flowers carried on stiff stems. A free and continuous bloomer. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred.

Dorothy Page Roberts (A. Dickson, 1907.)—Coppery-pink suffused apricot-yellow, petals very large; a very unique Rose possessing remarkably beautiful shades of color. An ideal garden Rose of wonderful charm. Gold medal N. R. S. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

Double Pink Killarney (Scott, 1910.)—The Killarney that will supersede the Killarney now grown. We have confidence in recommending this variety as a distinct improvement on the normal type, as it possesses from ten to twelve more petals than its parent. Awarded certificate of merit by the American Rose Society. $2\frac{1}{2}$ -inch pots, \$2.00 per dozen; \$12.00 per hundred. 4-inch pots, \$2.50 per dozen.

Duchess of Wellington (A. Dickson, 1909.)—Intense saffron-yellow suffused with rich crimson which, as the flower develops, becomes deep coppery-yellow, a shade of colors hitherto unknown among Roses; the petals are large and of great substance; very free flowering and of delightful fragrance. A great acquisition to the garden Roses. $2\frac{1}{2}$ -inch pots, \$1.50 per dozen; \$10.00 per hundred. 4-in. pots, \$2.50 per dozen.

Elizabeth Barnes (A. Dickson, 1907.)—Satin salmon-rose, with a fawn center suffused with yellow, outside of petals deep rosy-red shaded with copper and yellow; large, full, perfectly formed and delightfully fragrant. Superb. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$5.00 per hundred. 4-inch pots, \$2.00 per dozen.

Entente Cordiale (Pernet Ducher, 1909.)—A charmingly beautiful Rose of magnificent size and form; bud long and pointed, on long stiff stems; flowers large, globular and full; color creamy-white with sulphur-yellow center. From Chatenay it has inherited wonderful vigor and floriferousness. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$7.00 per 100. 4-inch pots, \$2.00 per dozen.

Florence Edith Coulthwaite (A. Dickson, 1908.)—An exquisitely beautiful bedding variety that can be classed as a substantial "fancy;" the blooms are large and full, of perfectly imbricated form, the edges of the petals beautifully ruffled. Color deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$5.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Frau Geheimrat Dr. Staub (Lambert, 1908.)—Deep brilliant pure red without shading; large, full, of fine form; sweetly perfumed. A good Rose. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

F. R. Patzer (Alex. Dickson, 1909.)—A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.50 per dozen; \$15.00 per hundred.

George C. Waud (Alex. Dickson, 1908.)—Orange-vermillion, remarkably distinct and beautiful; large, full, well formed, flowers freely; highly tea scented. One of the best. Gold medal N. R. S. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Hector Mackenzie (Guillot, 1908.)—Deep pink changing to silver-crimson. Flowers large and full, of perfect globular form, both free and fragrant, strong and vigorous and very free branching. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Helene Wattine (Soubert and Notting, 1910.)—White with lemon yellow center, very double and of the largest size, opening as flat as a plate; a vigorous grower and a very promising bedder. Has the beautiful form of Malmaison. $2\frac{1}{2}$ -inch pots, \$1.75 per dozen.

Hilda (Meyers and Sautman, 1911.)—This is a sport from My Maryland, enhancing that variety by being much darker in color. A superb Rose. Claimed to be a fine forcer. $2\frac{1}{2}$ -inch pots, \$2.00 per dozen; \$12.00 per hundred. 4-inch pots, \$5.00 per dozen.

Jacques Vincent (Soubert and Notting, 1909.)—Clear coral-red flushed with yellow; in the style of Lyon Rose, but more particular with deeper coppery center. A thoroughly new coloring; large and most elegant flowers; a grand bedder. $2\frac{1}{2}$ -inch pots, \$2.00 per dozen.

Jean Note (Pernet Ducher, 1908.)—Chrome-yellow center, deepening to reddish-orange; edges of petals creamy-yellow, large and full; extremely beautiful. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Jonkheer J. L. Mock (Leenders, 1910.)—This grand Rose is the strongest growing in the Hybrid Tea class. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color clear imperial-pink; a glorious flower. Awarded two gold medals, one silver medal and five first prizes in Europe. We can confidently recommend this sterling novelty as a most valuable addition. $2\frac{1}{2}$ -inch pots, \$2.00 per dozen; \$12.00 per hundred.

HYBRID TEA ROSES—Continued.

Kaiser Wilhelm II (Welter, 1910.)—Growth vigorous and upright, flowers large and very full, buds elongated, always opening well; color the richest shade of velvety-crimson, shaded black. Excellent garden Rose. 2½-inch pots, \$4.00 per dozen.

Lady Alice Stanley (McGredy, 1909.)—The blooms are very large, very full and of great substance. The petals are shell shaped, forming a perfect flower. The color on outside of petals is deep coral-rose, inside delicate flesh flushed deeper pink. A remarkably attractive and pleasing combination of coloring and quite distinct in every way; every shoot is crowned with a flower bud. A grand garden Rose. Awarded the gold medal of the N. R. S. 2½-inch pots, \$1.50 per dozen; \$12.00 per 100. 4-inch pots, \$3.00 per dozen.

Lady Helen Vincent (Alex. Dickson & Son, 1907.)—Shell-pink, reflex of petals blush, base of petals veined and suffused peach with a yellow zone; large, full and of exquisite form; buds long, pointed; very fragrant. Superb. Gold medal N. R. S. 2½-inch pots, \$2.50 per dozen.

Lady Ursula (Alex. Dickson, 1908.)—Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion. Keep your eye on this lady, because she's going to crowd somebody out of the line. 2½-inch pots, 60¢ per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

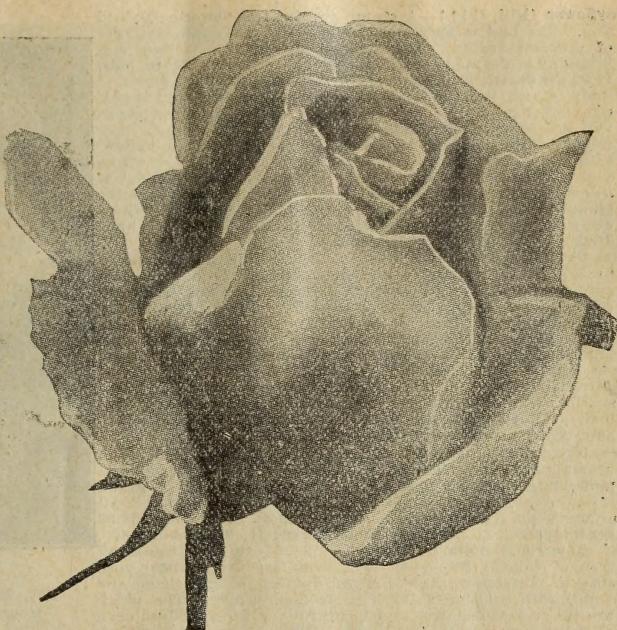

La Galissiere (Schwartz, 1908.)—Bright, deep pink bud, very large and full; a rank grower, extremely free bloomer; strongly recommended as a first rate bedder. The bloom is enormous in size, very full and of magnificent form. We recommend this Rose highly. 2½-inch pots, 75 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen.

Madame Leon Simon (Lambert, 1910.)—Growth vigorous and upright; flower buds long and pointed. Color dark rose with yellow center, reverse of petals carmine; very floriferous. Superb. 2½-inch pots, \$2.50 per dozen.

Madame Maurice de Luze (Pernet Ducher, 1907.)—Deep rose-pink with cochineal-carmine center; very large cup-shaped flowers carried erect. Extra fine. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen.

Mrs. Aaron Ward.

Madame Segond Weber.

Madame Mina Barbauzon (Soupert and Notting, 1901.)—Large, full, silvery-pink; free bloomer; very fragrant. 2½-inch pots, 75 cents per dozen.

Madame P. Euler (Guillot, 1908.)—Vermilion-pink changing to silvery-pink; very large, very full and possessing great lasting properties, perfect form; fragrant. Awarded first prize and gold medal at Clermont. 2½-inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Madame Ravary (Pernet Ducher, 1899.)—Not a new Rose but not largely disseminated in this country. In growth and habit it is much like Madame Caroline Testout, and will always command a good price, being difficult to propagate. Long pointed buds of beautiful golden-yellow, opening to large, full orange-yellow flowers; very free flowering. Superb. 2½-inch pots, \$1.25 per dozen; \$10.00 per hundred.

Madame Segond Weber (Soupert and Notting, 1908.)—One of the grandest novelties of recent years; everybody is talking about it and the more one knows of this wonderful Rose the more they will talk about it, and what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh-pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great grand garden Rose; awarded two gold medals. 2½-inch pots, 60¢ per dozen; \$4.00 per 100. 4-inch pots, \$2.00 per dozen; \$15.00 per 100.

Madame Valere Beaumez (Schwartz, 1908.)—Cream, yellow and orange are the colors in this queenly Rose. All the tints exquisitely beautiful, form very full and nicely rounded; a strong grower. We feel sure that this Rose will rank in the dozen best bedders. "Standard" in all necessary qualities, "fancy" in its coloring. 2½-inch pots, \$2.00 per dozen.

Mary Countess of Ilchester (Alex. Dickson, 1909.)—Warm crimson-carmine flowers of great size with large smooth, circular petals, upright growth, deliciously scented. A variety of much merit and distinction. 2½-inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Mrs. Aaron Ward (Pernet Ducher, 1907.)—This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years in a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. No wonder everybody that sees it falls in love with it; one of the most beautiful Roses in existence. 2½-inch pots, \$1.25 per dozen; \$8.00 per hundred. 4-inch pots, \$3.00 per dozen; \$20.00 per hundred.

HYBRID TEA ROSES—Continued.

Mayflower (Hill, 1910.)—A strong growing free flowering Hybrid Tea. The bud is long and pointed and opens into a flower of unusual beauty. The back of the petal is copper and bright pink, the upper surface peach and apricot. $2\frac{1}{2}$ -in. pots, \$1.00 per dozen; \$6.00 per 100. 4-inch pots, \$2.00 per dozen.

Melody (Alex. Dickson, 1911.)—A most charming and decidedly beautiful Rose. The blooms are carried on erect stems and are of good size, beautifully formed and strongly perfumed. The color is an intense pure deep saffron-yellow, with primrose edges, a delightful color harmony; a very free bloomer. At Sharon Hill from one two-year-old plant last December twenty-six flowers were cut, and from the same plant on the next crop in February twenty-seven flowers were cut. $2\frac{1}{2}$ -inch pots, \$1.75 per dozen; \$12.00 per hundred. 4-inch pots, \$5.00 per dozen.

Miss Cynthia Forde (Hugh Dickson, 1909.)—This Rose possesses in a superlative degree the essential points of an ideal garden Rose, viz., size, form, brightness, vigor and habit. In color it is a deep brilliant rose-pink, very large, perfectly formed and very full. It is sweetly perfumed and lasts a long time in good condition. Gold medal N. R. S. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per hundred. 4-in. pots, \$2.00 per dozen.

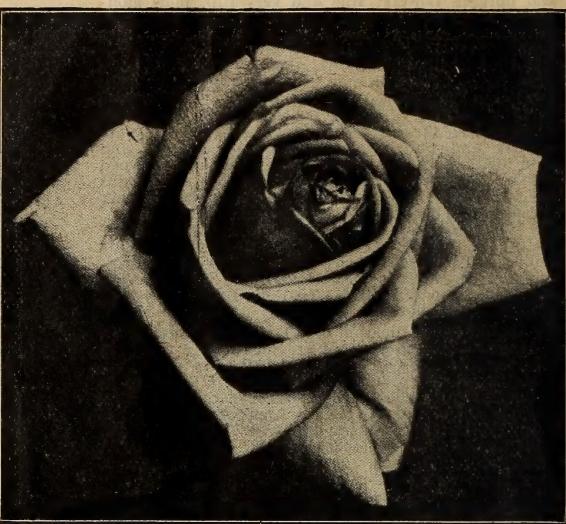

Mrs. Arthur Robert Waddell (Pernet Ducher, 1908.)—Rosy-scarlet buds opening reddish-salmon, reverse of petals rosaceous; semi-double flowers. A good decorative variety. $2\frac{1}{2}$ -inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Mrs. David Jardine (Alex. Dickson, 1908.)—Delightful shade of bright rosy-pink, shading in the outer petals to salmon-pink; large, perfect form; very highly perfumed. A grand Rose in every way. Superb. Unquestionably the finest all around general purpose Rose. $2\frac{1}{2}$ -inch pots, 60c per doz; \$4.00 per hundred. 4-in. pots, \$2.00 per dozen; \$15.00 per hundred.

Mrs. Edward J. Holland (McGredy, 1909.)—Of the "Kaiserin" type of Rose. The color is a beautiful deep salmon-rose shaded lighter towards the edges; perfect in both shape and form, with an unusually high pointed center. The petals are of great substance and beautifully arranged, forming a model flower of exquisite beauty. Because of the marvelous freedom with which it produces blooms throughout the whole season it will prove one of the finest and most striking garden Roses yet raised. Awarded gold medal N. R. S. $2\frac{1}{2}$ -inch pots, \$5.00 per dozen.

Mrs. Fred Straker (Alex. Dickson, 1910.)—The blooms are produced in most extraordinary profusion throughout the entire season. The color of the young flower is orange-crimson; as the bloom develops it becomes silvery-fawn on front of its petals and delicate orange-pink on the back. Its long and elegant buds come with a perfectly spiral finish which so closely blends or co-mingles its warm and charming colors as to give it a chatoyant (play of colors) all its own; deliciously fragrant. It is not too much to say, "Masterpiece." $2\frac{1}{2}$ -inch pots, \$5.00 per dozen.

Mrs. George Preston (Alex. Dickson, 1910.)—The blooms are very large, full and of globular form, flowering in profusion. The color is a very delicate warm silvery rose-pink, a truly delightful color. Sometimes in autumn it is lighted up with delicate orange; very fragrant. The blooms are of enormous size and possess great lasting qualities. $2\frac{1}{2}$ -inch pots, \$5.00 per dozen.

Mrs. David Jardine.

Mrs. Stewart Clark (Hugh Dickson, 1907.)—Color varying from bright cerise-pink to brilliant rose or cherry-pink, with distinct zone of white at the base of each petal. Flowers of immense size and great substance. A grand Rose of delicious perfume. Gold medal N. R. S. $2\frac{1}{2}$ -inch pots, \$5.00 per doz.

Mrs. Wakefield Christie Miller (McGredy, 1909.)—Color inside of petals soft pearly-blush shaded salmon, outside of petals clear vermillion-rose, a marvelous and delightful scheme of coloring which makes it quite the most remarkable variety in its class yet raised; of enormous size, it is bound to become a famous garden Rose. $2\frac{1}{2}$ -inch pots, \$4.00 per dozen.

My Maryland (Cook, 1909.)—An American Rose that has jumped into popular favor at once, sweeping the decks clean of both Europe and America. Color glowing, intense pink; large, full and of fine form. The freest Rose in growth and bloom that we know. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$6.00 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Olivia (Hill, 1907.)—The ideal red bedding Rose; was always just a little ways ahead—never quite reached. Such varieties as Meteor, Helen Gould, General McArthur, Gruss an Tegitz, Etoile de France each lacked something to make them ideal. Rhea Reid came nearer the mark in some localities, but now comes Olivia, coming under the wire first an easy winner. It has more petals in it than General McArthur and is a shade lighter in color than Rhea Reid, but has them both backed off of the boards when it comes to free blooming. A superb Rose. $2\frac{1}{2}$ -inch pots, 60 cents per dozen; \$4.50 per hundred. 4-inch pots, \$2.00 per dozen; \$15.00 per hundred.

Peerless (Lippmann, 1907.)—Almost pure white with pale flesh center; large, full, well formed; very floriferous. $2\frac{1}{2}$ -inch pots, 75 cents per dozen; \$5.00 per hundred. 4-inch pots, \$2.00 per dozen.

President Taft—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here while some of you may not admire the president himself, you will one and all admire the Rose given his name. It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose.

It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Our Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose Pres. Taft, and then you will not say enough." Do not confound this Rose with Leuchfeuer, which some have attempted to rename Pres. The color is irresistible. The plant grows like a weed and the flowers are nearly "immortelle" in their lasting qualities. We believe that they will outlast almost any other Rose in existence with their stiff paper-like texture. This pretty Rose has taken Europe by storm and will make a sensation as soon as known in this country. Awarded gold medal. $2\frac{1}{2}$ -inch pots, \$1.00 per dozen; \$6.00 per 100.

Quite hardy. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen.

Climbing Baby Rambler or Miss Messman — Climbing Polyantha. Color bright vivid pink, shaded carmine, a wonderfully attractive color. Received silver medal at Lyons show. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.00 per dozen.

Tausendschoen or Thousand Beauties (Schwarz, 1906.) — A Climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as **Crimson Rambler** or **Dorothy Perkins**. We wrote the above a year ago, and now we can add that this Rose is sweeping the country like a prairie fire. You can word paint all you want to and then you will have left something unsaid. Simply a wonder. 2½-inch pots, 50 cents per dozen; \$3.50 per hundred. 4-inch pots, \$1.50 per dozen; \$15.00 per hundred.

Tausendschoen or Thousand Beauties.

Veilchenblau, The Blue Rose (Schmidt, 1909.) — The most wonderful Rose of the century for the reason that it marks a decided advance in the color of the Rose hitherto only dreamed of. Veilchenblau or Violet Blue is the proper name, but no doubt it will be known in America as the Blue Rose. This Rose is going to have a larger sale by far than Crimson Rambler. Have we seen it flower? Well, I guess yes, and our word for it if you want something to cause you to stop and take notice, the Blue Rose will fill the bill. At a distance of fifty or a hundred feet a bush of the Blue Rose in full bloom will startle you. When such firms as Ellwanger and Barry, of America, and Alex. Dickson and Sons, of Ireland, give this Rose unstinted praise, it's about time for the plodding nurseryman to stop, look and listen. A seedling from Crimson Rambler, semi-double flowers larger than that variety, produced in large trusses. This Rose first opens pink, but quickly changes to violet-blue. The introducer describes it as being reddish-lilac changing to amethyst and steel blue. Very distinct and extremely pleasing. A wonder. Going to sell? Yes, everybody will want and will demand the Blue Rose. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$1.50 per dozen; \$10.00 per hundred.

White Dorothy Perkins (B. R. Cant, 1908.) — It has been the cry of nurserymen for years for a white climber that would rank up with Crimson Rambler, and now we have the pleasure of offering this White Dorothy Perkins that in every way is the equal, if not superior, to Crimson Rambler as a red, and Dorothy Perkins as a pink. This Rose has no rival as a white climber. 2½-inch pots, 60 cents per dozen; \$4.00 per hundred. 4-inch pots, \$2.50 per dozen; \$15.00 per hundred.

HYBRID TEA ROSES—*Rosa Thea Hybrida*

This is a class of recent creation, embodying the delicate shades and peculiar fragrance possessed by the Tea Roses combined with the vigor and more pronounced pink and crimson shades of color previously confined to the Hybrid Perpetual class. In our opinion the Hybrid Teas will supersede all others because of their superior constitution and marvelously free flowering qualities. In a sentence it may be said they combine all the better traits of the two classes from which they sprung, altogether a great advantage. Almost all are highly perfumed, an attribute absolutely essential to a perfect Rose.

Etoile de France (Pernet Ducher, 1905.)—The gold medal Rose of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively during the past season, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine rich color, deliciously fragrant. What more can be said of a Rose? 2½-inch pots, 50 cents per dozen; \$3.50 per hundred. 4-inch pots, \$1.50 per dozen; \$12.00 per hundred.

Summer Bedding Roses for Cut Flowers

Mr. Florist you have no excuse to be without Roses during any day of the Summer and plenty of them

THE PLANTING OF ROSES in the garden for summer cut flowers has become in recent years a large business. We sell as many as twenty thousand plants to one concern for this purpose. The best proof that it is profitable is the fact that the firms who first made the trial are increasing their plantings, while many others are going into it. You say, "How shall we winter them?" We reply to let your wheels revolve fast enough to realize that you can buy Roses as cheaply as you can buy Salvias and Geraniums, and should you fail to winter the Roses, no serious loss is sustained. Another thing, the Tea and Hybrid Tea Roses will produce more blooms twice over than any Geranium. No florist has an excuse for being out of Roses throughout the entire summer season, and your blooms will be finer than any ever cut under glass.

HOW TO OBTAIN THESE RESULTS

Select land, if possible, with a clay subsoil and a clayey loam top soil. Roses always do best where their roots can strike down and take hold of clay. Give a good coat of manure and plow deep. Always plant G. & R. own root two-and-a-half-inch pot plants. Time of planting should be governed by the locality (in our vicinity May 1st to 10th). Should the spring be early the planting may be done April 15th. Early planting, while the weather is cool, assures an active root action, and the plants are thus ready to work when the hot weather comes on. Cultivation should be intensive; that is, run the cultivator through them at least three or four times in two weeks, right after planting, and then use the hoe to loosen up the soil between the plants in the row. Now comes the important part. Mulch with straw manure fresh from the stable to a depth of 1½ to 2 inches, enough to thoroughly cover the ground, placing it right up around the plant. After this all you need to do is to pull what few weeds show (and but few do show through this mulch). This mulch will provide the necessary moisture and also do away with the cultivation. Never allow the flowers to open on the plants, but cut in the bud state, the stems placed in water and taken inside, and my! what Roses you will see! Nothing grows under glass to compare with them. Only certain varieties of Roses are suitable—those that are good growers, producing fine buds and flowers on good stems.

IMPORTANT—The list we name, so far as we know, will do well in all parts of the country. The florist in Ohio, or Wisconsin should have glorious Roses to cut all summer. You can experiment with a few hundred plants. There may be other varieties that in certain localities will fill the bill as a profitable summer cut flower. We will consider it a favor if our customers will write us saying what are the best for this purpose in their different localities. The following varieties of Roses we have found best for summer cut flowers in Ohio. Refer to the index for description of these Roses. Each and every one are free bloomers and are gems of the first water.

The King of Flowers—Hardy Everywhere

Herbaceous Peonies

The demand for fine Peonies is growing with each year, and every florist should have at least a small plantation of them from which to supply his trade, both for the plants and for cutting the bloom. One can make no more profitable investment. The bloom if cut in the bud state lasts for a week or more. We offer as choice a list of Peonies as you will find in this country. To the collector, the varieties named will be attractive. To those who wish to increase their stock of desirable sorts, this list will appeal, and to the nurserymen and dealers who buy to sell, there will be found a list of choice varieties at moderate cost. We started some years ago to grow Peonies, and we believe that no firm in this country has such a large planting of valuable sorts as we. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as G. & R. Roses, so do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name. The plants we offer are divisions (from plants two to three years old), with two to five or more eyes. We always give value. We supply six at dozen, 25 at hundred, and 250 at thousand rates. For any varieties not listed write us for prices.

A Field of Our Peonies.

Some of the Finer Peonies That Are Scarce

Our collection of Peonies comprises the finest sorts obtainable, varieties combining beauty of form, with fullness, large size and clear color. In the matter of form, especially the modern Peony delights the eye and compels admiration; many of the old garden varieties had no more beauty of build than a shuttle-cock, depending solely upon size and color to attract. The varieties here listed are as symmetrical and as graceful as the highest type of Roses and Chrysanthemums, and absolutely free from coarseness.

Albatre (Crousse.)—Ivory-white, with a few carmine lines in the center; one of the most superb Peonies. \$3.00 per dozen; \$20.00 per hundred.

Dorchester (Richardson.)—Delicate salmon-flesh, beautifully shaped, double flowers; late; gem. \$4.00 doz; \$30.00 per 100.

Felix Crousse. (Crousse.)—Large double ball-shaped bloom; color rich ruby-red, we think the best red Peony. \$3.50 per dozen; \$25.00 per hundred; \$225.00 per thousand.

Festiva (Donkelae.)—Syn. Festiva Paschalais. The Passover Peony, around Chicago called Drop White. Very much like Festiva Maxima, only dwarfer and a week later. \$1.75 per dozen; \$14.00 per hundred.

Floral Treasure (Rosenfeld.)—Bright delicate pink, shading lighter in the center; large and fragrant. \$4.00 per dozen; \$25.00 per hundred.

Golden Harvest (Rosenfeld.)—Blush guard petals with crown of yellow, center white touched with crimson; extremely free. \$4.00 per dozen; \$30.00 per hundred.

Mme. Forel (Crousse.)—Enormous, very full ball-shaped bloom. Color glossy-pink, with silvery reflex. The princess among pink Peonies. \$3.00 per dozen; \$20.00 per hundred; \$175.00 per thousand.

—BEAUTIFUL FERNS—

The Grandest Fern of the Age, Nephrolepis "Roosevelt"

IMPORTANT—Some dealers say this Fern is no better than Harrisii. Roosevelt Fern will make a better plant in a six-inch pot than Harrisii will in a ten-inch pot, and that is what will make you the money every time.

It is our good fortune and great pleasure to offer this wonderful new Fern. In general characteristics it resembles the world famous Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston, thus making a bushier, handsomer plant. In fact, it is the best Fern for florists' use ever introduced.

The usual size to sell the Boston Fern is from a six-inch pot. Well, let us tell you that in a six-inch pot of the Roosevelt and the Boston there is no comparison. The Roosevelt almost doubles the fronds of a Boston in a six-inch pot, thus making a much more finished plant, and therefore, more salable. The pinnae are beautifully undulated, giving the Roosevelt a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. Some dealers are attempting to lead the trade to believe that the Roosevelt Fern is similar or identical with the variety known as Harrisii, or the Harrisii type. This is positively incorrect, as a single plant of Roosevelt grown in a six-inch pot will produce more fronds than the others will in a ten-inch. The Roosevelt in a six-inch pot shows even more of the drooping habit than Boston, while the Harrisii is of upright growth. Then again, the number of well developed fronds in the Roosevelt are fully one-third greater in number, thus making a much more finished plant than any other Fern grown. Everybody will want this grand Fern. The Roosevelt Fern will be distributed June 1, 1911. We will book orders and fill in strict rotation as to the date we receive same. **Each, 40 cents; two-and-one-four-inch pots, \$3.50 per dozen; \$25.00 per hundred; \$200.00 per thousand. Twenty-five plants at hundred rate, 250 plants at thousand rate.**

Nephrolepis Davallioides Furcans.

Fronds of Nephrolepis Roosevelt.

Nephrolepis Scotti

The Newport Fern.

Identical with the Boston Fern, except it is smaller in all of its parts, and more compact, and will make more fronds in a given length of time. The fronds are lighter green than any of the Nephrolepis. The plants are never straggly. 2½-inch pots, 50c per dozen; \$3.50 per hundred; \$32.50 per thousand. 4-inch pots, \$2.50 per dozen.

Nephrolepis Davallioides Furcans

The Fish Tail Fern.

This is a most beautiful Fern, immense quantities of it being used for the New Orleans trade. The end of each pinnae is notched to resemble a fish tail, hence its local name. It grows into the most shapely plant of any of the Nephrolepis. Try it. 2½-inch pots, 50 cents per dozen; \$3.50 per hundred; \$32.50 per thousand. 4-inch pots, fine plants, \$3.00 per dozen; \$20.00 per hundred.

BEAUTIFUL FERNS

(Continued)

Nephrolepis Piersoni

The Tarrytown Fern.

In this beautiful new Sword Fern we have a rival of the Ostrich Plume Fern. The fronds are the same size, only not so featherly. 2 $\frac{1}{4}$ -inch pots, 50 cents per dozen; \$3.00 per hundred. 4-inch pots, \$2.50 per dozen; \$18.00 per hundred.

Nephrolepis Elegantissima Improved

The Philadelphia Lace Fern.

This without question stands in a class by itself among Ferns. It belongs to the true Ostrich Plume type of Fern, and has this decided advantage over the others of never reverting to the Boston type. Its fronds are long and graceful and airy, resembling delicate lace. A most remarkable variety. 2 $\frac{1}{4}$ -inch pots, \$2.00 per dozen; \$15.00 per hundred.

Nephrolepis Scholzeli

New Plumed Scotti Fern.

A plumed and crested form of the Scotti Fern. Everyone admires it. Entirely distinct from all the other Ferns. 2 $\frac{1}{4}$ -inch pots, 75 cents per dozen; \$5.00 per hundred.

Nephrolepis Exaltata

The old original Sword Fern and largely used for vase work. Upright rigid grower. 50 cents per dozen; \$2.50 per hundred.

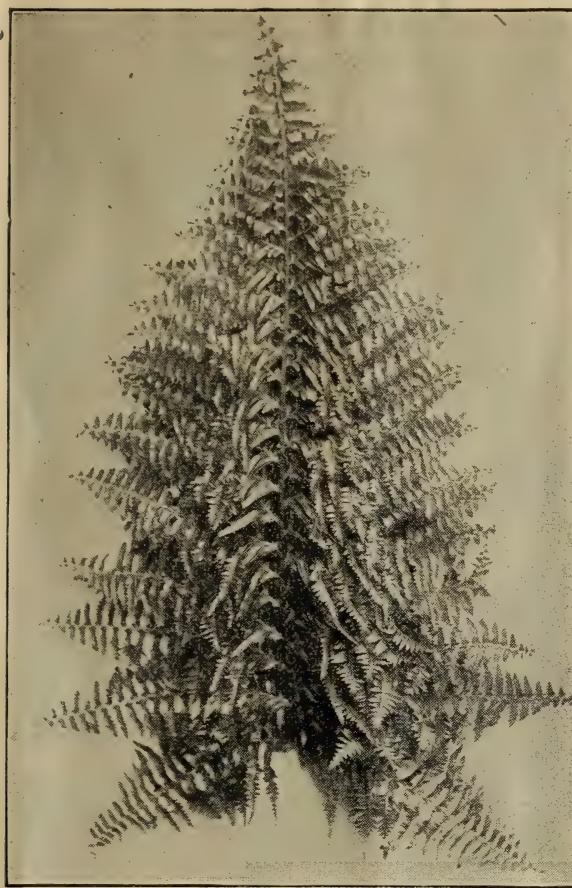

Boston or Fountain Fern—See description page 31.

New Fern, Nephrolepis Roosevelt in six-inch pot. Makes a better plant in small pot than any other Fern. See description page 29.

BEAUTIFUL FERNS—Concluded

Nephrolepis Goodii, "Baby's Breath."

Nephrolepis Goodii

Or Baby's Breath Fern

This is a novelty that originated with us. It has the finest and most dainty fronds of all the Ferns. It gives the impression of fine lace work. The fronds are much finer cut and more fluffy than is Amerpholii. A lady on seeing it exclaimed: "Call it the Baby's Breath, as it is so dainty in texture that a baby's breath would set it in motion." 2½-inch pots, \$1.50 per dozen; \$10.00 per hundred.

Nephrolepis Superbissima

Fluffy Ruffles Fern.

This is a new Fern, the fronds of which are so irregular in growth that some one suggested the above name. 2½-inch pots, \$1.00 per dozen; \$6.00 per hundred. 3-inch pots, \$1.50 per dozen; \$10.00 per hundred.

Nephrolepis Exaltata Bostoniensis

Boston or Fountain Fern.

This differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, making it an excellent plant to grow as a single specimen on a table or pedestal. Good plants from 2½-inch pots, 50 cents per dozen; \$3.00 per hundred; \$27.50 per thousand. 3-inch pots, \$1.00 per dozen; \$7.00 per hundred. 4-inch pots, \$2.50 per dozen; \$18.00 per hundred.

Nephrolepis Whitmani

The Ostrich Plume Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced; not only is it of dwarfer and more compact habit than the N. Elegantissima, but the pinnae, being more deeply divided, give the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern. Strong, 2½-inch pots, 50 cents per dozen; \$3.00 per hundred. 4-inch pots, \$2.50 per dozen; \$18.00 per hundred.

The Wonderful Lemon Ponderosa

A Fine Pot Plant for Florists' Sales.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of the ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow his own lemons; it will fruit freely each year.

Ponderosa Lemon.

From the Houston Post, December 9, 1906.
Ponderosa Lemon.

Harry Adams, landscape gardener for the Sunset at San Antonio, has presented Col. T. J. Anderson a monster Ponderosa Lemon from the Sunset tropical botanical gardens at the depot in that city. There were thirty-eight lemons on this tree, and the one sent is one of the largest, weighing about three pounds. It is estimated that this single lemon will make two gallons of good lemonade or two barrels of the circus variety, or material for two dozen lemon pies, or sour enough to impart flavor to one hundred and fifty sour toddies, or lemon peel sufficient to decorate two hundred cocktails. Colonel Anderson sent the monster Lemon to the office of Traffic Manager C. K. Dunlap.

Lilium Harrisii

The True Bermuda Easter Lily.

This peerless Lily is the greatest acquisition to floriculture made in many years. Their profusion of bloom, the remarkably short time required to bring them into flower, and the certainty to produce abundant bloom, and also the ease with which they can be manipulated to be flowered at any desired period, such as Christmas, Easter and other special occasions, make them invaluable. Flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they are open or partially open they can be kept for two weeks. A short time only is required to bring them into bloom. Bulbs potted in August can be had in flower in November if desired. A succession of bloom can be kept up from November to May by bringing the pots of rooted bulbs in from cold frames at intervals during the winter. The quantity of bloom produced is marvelous. Blooming plants in pots form typical Easter offerings and presents, for decoration of window, table, house or church. **Five to seven inch bulbs, 7 cents each; 60 cents per dozen.**

Double Tiger Lily (Tigrinum Flore-Pleno).

Lilium Candidum

The old-fashioned pure white garden Lily, also known as Easter Lily, or Annunciation Lily. One of the hardiest. Flowers snow-white, with heavy yellow stamens and sweetest fragrance. It bears from five to twenty blossoms. This is the most decided variety we have in expressing its preference for a planting time. **It must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early flowering.** The bulbs are sometimes kept in cold storage for spring sales, but never do quite so well. Customers will do well to plant a bed of twenty-five or more for a permanent bed or border. **10 cents each; 75 cents per dozen; \$6.00 per hundred.**

Tigrinum Flore-Pleno

Bright orange, spotted black and very double. **7 cents each; 75 cents per dozen.**
